EDUCATION

12TH STANDARD

Pathak School

BBA

Shree Mirambika College

PROFILE

Data Analyst with hands-on experience across Python, SQL, Power BI and Excel. Skilled at building interactive dashboards and using DAX, EDA and statistical analysis to turn raw data into clear, actionable insight. Detail-oriented, deadline-driven, and eager to bring analytical rigor to a forward-thinking team.

PROJECT

• Retail Product Sales Dashboard

Excel · Pivot Tables · Pivot Charts

Interactive Excel dashboard tracking monthly sales and quantity trends across 2011–2014, with category-wise revenue breakdown across 17+ product lines.

• Customer Churn Analysis Dashboard

Power BI · DAX · Data Modeling

Analyzed churn for 1,000 subscription customers using DAX measures and a retention funnel, identifying a 77.6% churn rate and 33 high-risk customers by AgeGroup, Gender and SubscriptionType.

• Sales Report Dashboard

Power BI · Power Query · DAX

Power BI sales report with KPI cards, rolling sales trend and category-by-year comparisons, surfacing 844.02K total sales across 5,502 units with drillthrough filters.

CERTIFICATIONS

• Data Analytics Job Simulation

Deloitte · via Forage Completed practical tasks in data analysis and forensic technology (Aug 2026).
